

Wind Farm 1 – Metmast

On-site SCADA data from the meteorological mast

Field Name	Description
<i>TimeStamp</i>	Date and time of the measure
<i>Descriptors + Value</i>	Description and value of the sensor data

Please find below the most important meteorological mast signals available and respective units. There are other variables in the dataset relative to the equipments' frequency and offset not described here. The data is given for a 10-minute average period.

Descriptor	Description
<i>Min_Windspeed1 [m/s]</i>	Minimum wind speed – sensor 1
<i>Max_Windspeed1 [m/s]</i>	Maximum wind speed – sensor 1
<i>Avg_Windspeed1 [m/s]</i>	Average wind speed – sensor 1
<i>Var_Windspeed1 [m/s]</i>	Variance wind speed – sensor 1
<i>Min_Windspeed2 [m/s]</i>	Minimum wind speed – sensor 2
<i>Max_Windspeed2 [m/s]</i>	Maximum wind speed – sensor 2
<i>Avg_Windspeed2 [m/s]</i>	Average wind speed – sensor 2
<i>Var_Windspeed2 [m/s]</i>	Variance wind speed – sensor 2
<i>Min_Winddirection2 [°]</i>	Minimum wind direction – sensor 2
<i>Max_Winddirection2 [°]</i>	Maximum wind direction – sensor 2
<i>Avg_Winddirection2 [°]</i>	Average wind direction – sensor 2
<i>Var_Winddirection2 [°]</i>	Variance wind direction – sensor 2
<i>Min_AmbientTemp [°C]</i>	Minimum ambient temperature
<i>Max_AmbientTemp [°C]</i>	Maximum ambient temperature
<i>Avg_AmbientTemp [°C]</i>	Average ambient temperature
<i>Min_Pressure [hPa]</i>	Minimum pressure
<i>Max_Pressure [hPa]</i>	Maximum pressure
<i>Avg_Pressure [hPa]</i>	Average pressure
<i>Min_Humidity [%]</i>	Minimum humidity
<i>Max_Humidity [%]</i>	Maximum humidity
<i>Avg_Humidity [%]</i>	Average humidity

<i>Min_Precipitation [mm]</i>	Minimum precipitation
<i>Max_Precipitation [mm]</i>	Maximum precipitation
<i>Avg_Precipitation [mm]</i>	Average precipitation
<i>Min_Raindetection</i>	Rain sensor
<i>Max_Raindetection</i>	Rain sensor
<i>Avg_Raindetection</i>	Rain sensor
<i>Anemometer1_Freq [Hz]</i>	Anemometer sampling frequency - sensor 1
<i>Anemometer1_avg_Freq</i>	Anemometer average sample rate – sensor 1
<i>Anemometer1_offset [m/s]</i>	Anemometer sensor offset error – sensor 1
<i>Anemometer1_corrGain</i>	Anemometer gain correction factor sensor 1
<i>Anemometer1_corrOffset</i>	Anemometer offset correction sensor 1
<i>Anemometer2_Freq [Hz]</i>	Anemometer sampling frequency - sensor 2
<i>Anemometer2_avg_Freq</i>	Anemometer average sample rate – sensor 2
<i>Anemometer2_offset [m/s]</i>	Anemometer sensor offset error – sensor 2
<i>Anemometer2_corrGain</i>	Anemometer gain correction factor sensor 2
<i>Anemometer2_corrOffset</i>	Anemometer offset correction sensor 2
<i>AirRessureSensorZeroOffset [hPa]</i>	Pressure sensor offset
<i>Pressure_avg_freq [Hz]</i>	Pressure sensor sampling rate
